

LÊ TUẤN – THƠ ANH NGỮ: We Grow Old Together

We Grow Old Together

Let's grow old together

The shadow of time is tearing the face into pieces

No longer young, do not complain about your fate

Just go with the flow of human life.

Let's grow old together

Unstable legs, swollen and painful knees

Hands trembling, holding hands and walking

Until the end of life still hope for the future.

LT

The poem is quite long, please read on.
